

Basic Pole Swag

9207

This Basic Pole Swag is casual. Each swag and jabot is cut separately, in order to have all the necessary angles. The pieces are then sewn together before the fullness areas (seams) are “scrunched” by hand and tied for a pole overlap size of 3”. **Swag widths extend 24” to 54”.** The patterns have a cutting line for a 15” or 18” swag depth (Measurements are from the top of a 2” pole).

The swag has an open “droop” area of 4” from the bottom of a 2” pole. The droop area can be adjusted. The **jabot finishes 38” long**, alteration instructions are included. The elegant “classic” finials are for use on hollow poles only. They are very easy to make. In order for both jabots to be on front of the pole, odd number of swags must be used.

Fabric Suggestions: Light weight fabrics must be used. The jabots should line with a self or contrast fabric. The swags can be lined with a regular drapery lining. Finials work well with both medium and lightweight fabrics, however soft fabrics will need an interfacing or interlining.

YARDAGE

With so many different fabric widths and repeats available today, we find it works best if we give you the actual pattern sizes so you can determine how they will fit on your fabric. If your fabric is not as wide as the pattern, you will need to allow more fabric for piecing.

Upright or lengthwise cut

Swag	15” DEPTH	18” DEPTH
24” wide the pattern is	39” wide x 30” deep	45” wide x 38” deep
38” wide the pattern is	49” wide x 30” deep	59” wide x 38” deep
54” wide the pattern is	64” wide x 30” deep	69” wide x 38” deep
Jabot	the pattern is 27” wide x 40” deep	35” wide x 40” deep

Bias Cut

Swag	15” DEPTH	18” DEPTH
24” wide the pattern is	37” wide x 37” deep	44” wide x 44” deep
38” wide the pattern is	45” wide x 45” deep	52” wide x 52” deep
54” wide the pattern is	56” wide x 56” deep	63” wide x 63” deep

Same amount of lining will be needed.

Finials: one yard will do one pair. If doing finials out of same fabric as swags or jabots, scraps will probably be enough (these finials can only be used on hollow poles).

Yardage for trims:

Trims must be able to curve.

	15” SWAG	18” SWAG
Each jabot	53”	61”
Each 24” swag	44”	49”
Each 38” swag	54”	58”
Each 54” swag	68”	73”
