

# Designer Pole Swag

9238

24" Depth

This is a formal pleated pole swag with an overlap size of 10". The helpful hint section will tell you how to easily convert it to a gathered style if you wish. The **swag width** will extend from **30" to 54"**. An easy mathematical formula will teach you how to determine swag sizes for windows needing more than one swag. The swag will hang with eight pleats at a **depth of 24"** (measurements are from the top of a 2" pole). The droop area of the swag is 5" – 7" from the bottom of a 2" pole. **Jabots finish at 47"**, with alteration instructions and your choice of return sizes. The **Heritage finials** are fabric and can be made with or without a ruffle. Using a contrast fabric to line the ruffle is a striking touch.

**Fabric Suggestions:** Light to medium weight fabrics will work best. Pleat stack up can be a problem with bulky fabrics. Jabots need self or contrast lining. Finials also work best with a soft lightweight fabric. A lightweight interfacing can be added to the ruffle if needed.

## YARDAGE

With so many different widths and repeats available today, we find it works best if we give you the actual pattern sizes so you can determine how they will fit on your fabric. If your fabric is not as wide as the pattern you will need to allow more fabric for piecing.
