

Flip Pole Swag 9006

This pattern was revised in 2005. If you don't have the latest pattern you may return your used pattern for a new one at 1/2 price. If your pattern is unused there is no charge, besides your shipping cost.

Can the swags be altered?

This pattern was revised in 2005 to give precise sizes (per swag) of 22" to 34". The depth can be 16" or 18", but can not be altered. Each swag section on the unrevised pattern will give about 20" of pole space.

Can the pattern be adjusted to fit a window 48" by using 3 swags 17" wide?

Yes, just make a tuck at the center of the pattern.

Can this pattern be used with rings?

No.

Can I use the jabots and tails on this pattern for one of your Basic Pole Swag patterns (9207 or 9218)?

Yes you can use the tail from 9006, but do not use the jabot, as the jabots will be too skimpy for the Basic Pole swags.
